18. 01. 2018

Dear Members and Supporters of the EUREKA Cluster Metallurgy Europe,

As you might be aware the cluster Metallurgy Europe is well established since last year. In order to proceed to the next steps, we are organizing a Metallurgy Europe Event at the EUREKA secretary office in Brussels on 21.2.2018 to which you are cordially invited.

The event has the main purpose to give an update on the status of Metallurgy Europe and, even more, to support **the creation of new projects** for the second call. This call which is thematically rather open has been launched in December 2017 on the ME website and is currently open with deadline end of April 2018

(see also http://metallurgy-europe.eu/wp-content/uploads/2018/01/Metallurgy-Europe_TEXT_HF-Call-02_18_Dec_2017.pdf).

The agenda is planned as such:

10.30 – 11.15 Metallurgy Europe – update on current situation and requirements for call 2 proposals

11.15 – 12.00 Feedback from the audience / discussion

12.00 – 13.00 Lunch break + coffee

13.00 – 15.00 Project match making workshop

15:30 – 17:00 Meeting Metallurgy Europe Industrial Steering committee
(for members of the committee)

The event will take place at the EUREKA secretary office, 4th floor, Rue Neerveld 107, B-1200 Brussels.

Please feel encouraged to attend and develop new industry based joined projects based on international cooperation and having at least two partners in one project. The financial support available amounts to approximately 80-90 Mio. € through the countries mentioned explicitly in the call.

As we have to prepare the lunch break and a list of the participants for the EUREKA office we would need a confirmation from you **before the 15.2.2018 by mail** (to ole.koeser@esi-group.com, hans.fecht@metallurgy-europe.eu).

Looking forward to meet you in Brussels.

Best regards

Hans Fecht, Ole Koeser, Stefan Zickgraf
